**2007-0211 Site-Specific Flood Protection of Flood Prone Homes**

As part of the Village Square flood mitigation, the Village purchased the homes located at 15160 Royal Foxhunt Road and 15155 Windsor Drive. To alleviate flooding on Royal Foxhunt, overland flow paths must be established adjacent to those homes. Christopher B. Burke Engineering Ltd. (CBBEL) has designed a grading plan and a proposal was obtained to complete the work. The proposal from Mid America Tree & Landscape, Inc. of Mokena, Illinois, totals \$7,700. To keep costs down, Public Works Crews will work with the contractor to perform initial site clearing and debris removal. An additional \$800 is requested to be available for unforeseen restoration once work commences.

On April 9, 2007, this item was reviewed and approved by the Public Works and Engineering Committee and referred to the Board for approval.

I move to approve accepting the proposal from Mid America Tree & Landscape, Inc. of Mokena, Illinois, for the establishment of overland flow paths adjacent to flood-prone homes in Orland Park in an amount not to exceed \$8,500;

And

Approve authorizing the Village Manager to execute the proposal.

**This Matter was APPROVED on the Consent Agenda.**

Respectfully Submitted,

/s/ David P. Maher
