December 13, 2023

Dear Orland Park Resident,

As part of the ongoing maintenance program in the Village of Orland Park, the Sterling Ridge ponds located along the west side of Warwick Lane are scheduled to undergo a controlled burn event on December 14th, 2023. This schedule is weather-dependent and may be changed last minute if projected wind and precipitation conditions are deemed unfavorable. The burn will last for a single day and will be closely monitored by the Orland Fire Protection District to ensure that the flames remain safe and in control at all times. Work crews will also remain on site until all smoke and embers have died down to ensure the fire does not spread after the burn has finished.

During the burning you will notice flames and smoke plumes rising from the pond area. This is to be expected and should not be cause for alarm. All efforts will be made to minimize the impact of smoke in the surrounding area, but residents are advised to keep their windows closed, keep family and pets inside, and cover or shelter any personal effects kept outside until the smoke clears. Signs will be posted on the day of the burn to alert passersby of the burning activity. Any ash settling from the smoke should be minimal and will be washed away following the next oncoming precipitation event.

We apologize for any inconvenience this may cause, and truly appreciate your patience and cooperation during this project. Should you have any concerns or require further information, please do not hesitate to contact the Village of Orland Park Public Works Department at 708-403-6350.

Sincerely,

Tyler Hartman
Construction Project Technician
